interaction

noun [C or U] • **UK**  /,ɪn.təˈræk.ʃən/ **US**  /,ɪn.t̬əˈræk.ʃən/

★ **C1** an occasion when two or more people or things communicate with or react to each other:

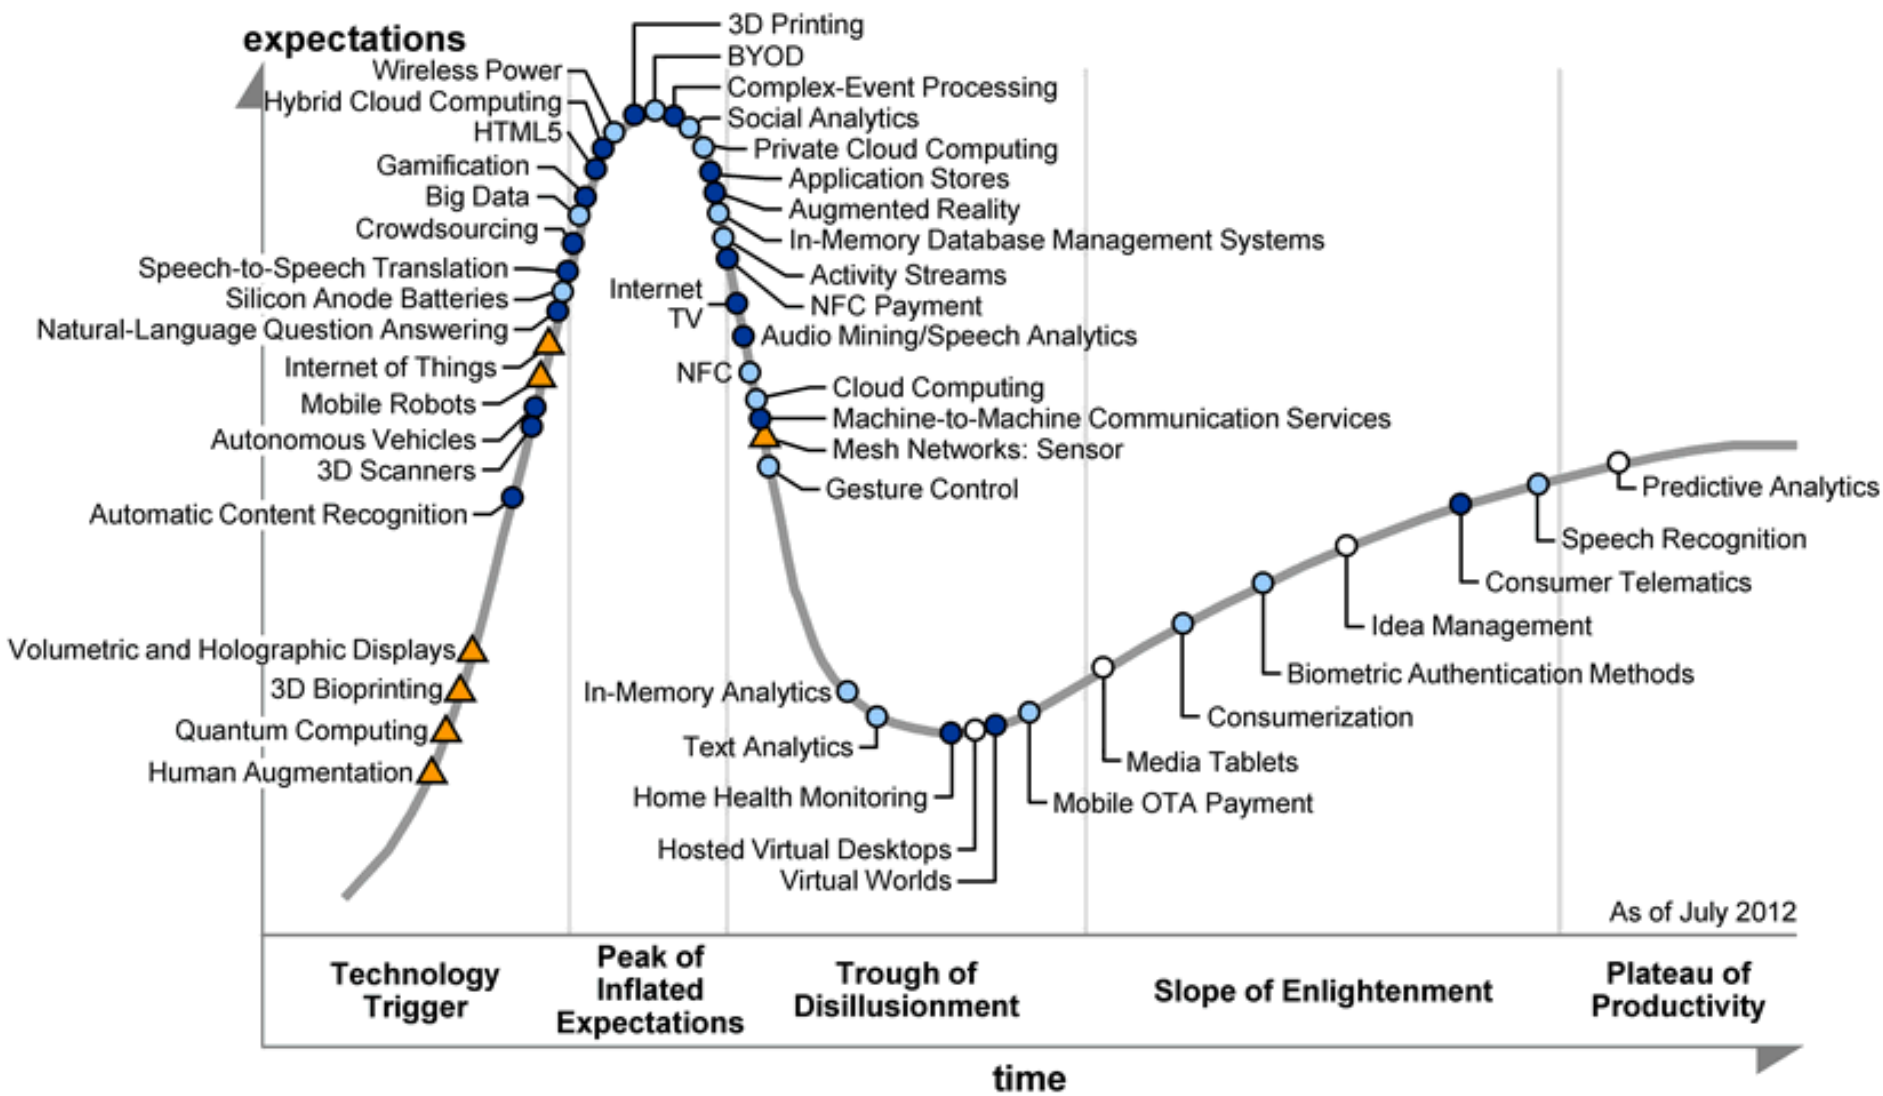

*There's not enough interaction **between** the management and the workers.*

Language games are usually intended to encourage student interaction.

The play follows the interactions of three very different characters.

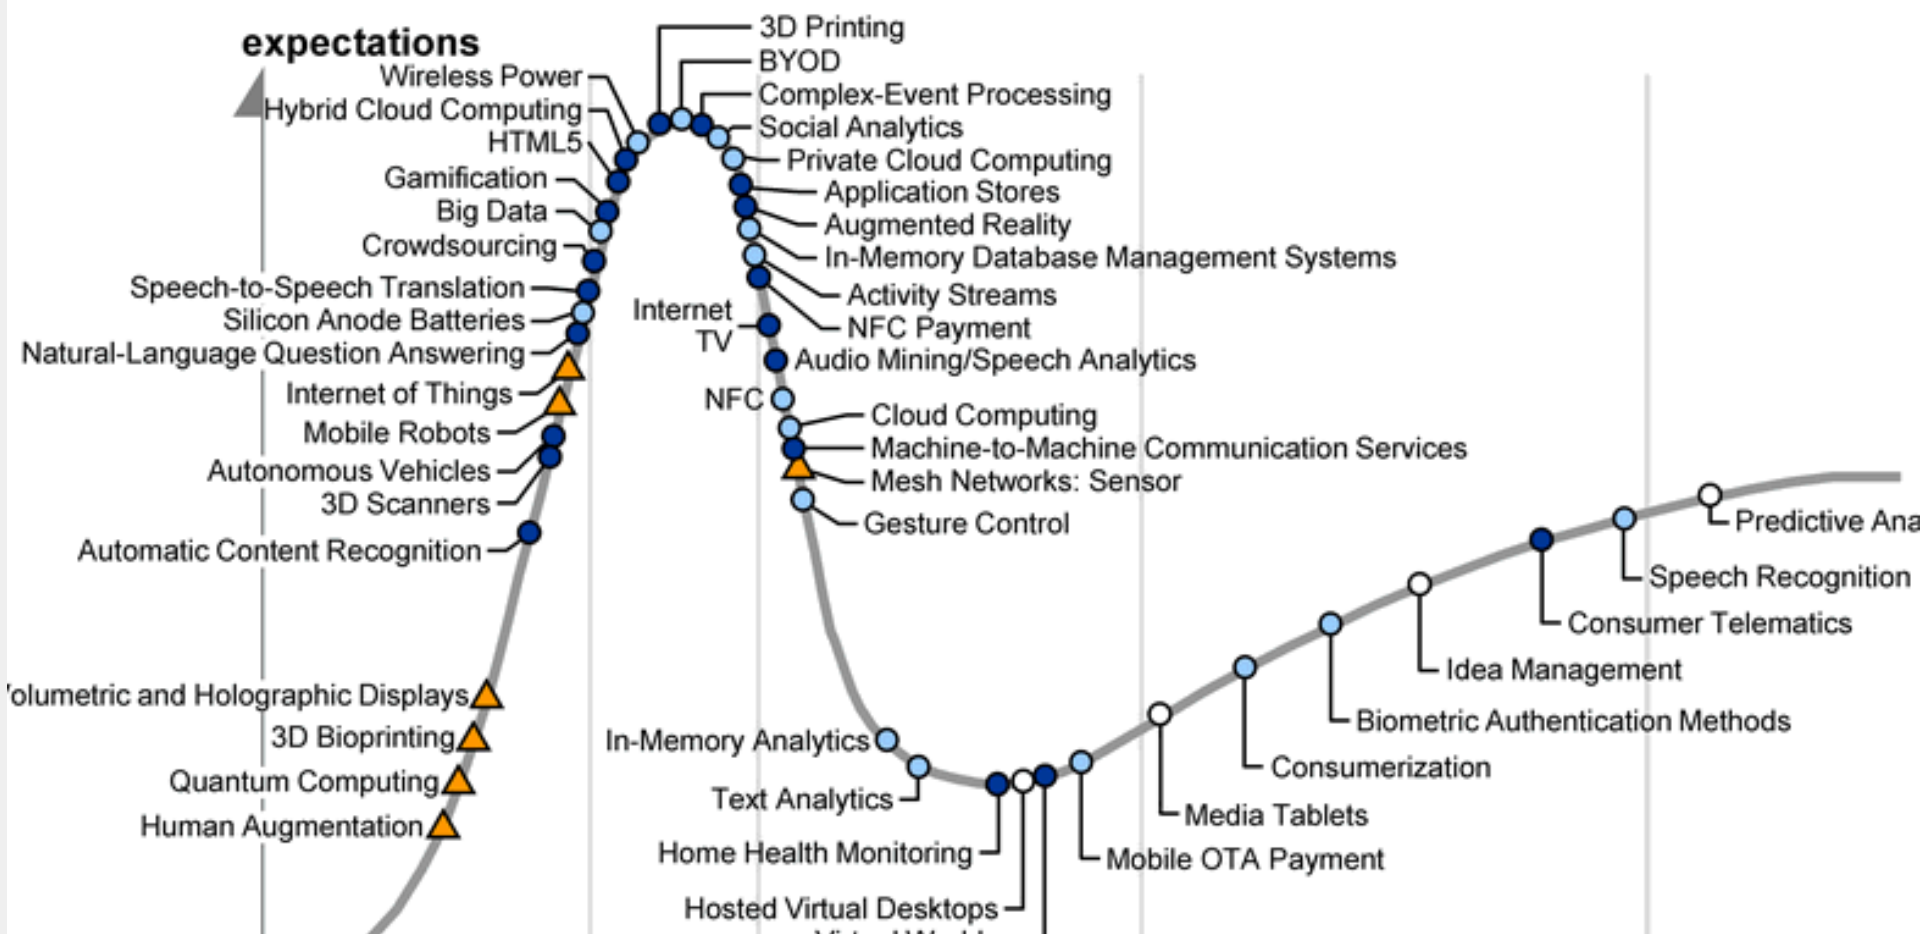

Example of good design (HCI)

- Google.com
- Translate.google.com
- Maps.google.com

Exercise

- In groups of app. 2 persons: 10 minutes + 10 minutes
- Define a product where you want a disruptive interaction design OR
- Find an example of bad interaction design
 - Give suggestions to improvements
 - Now re-think it completely
 - What is it, you really want?

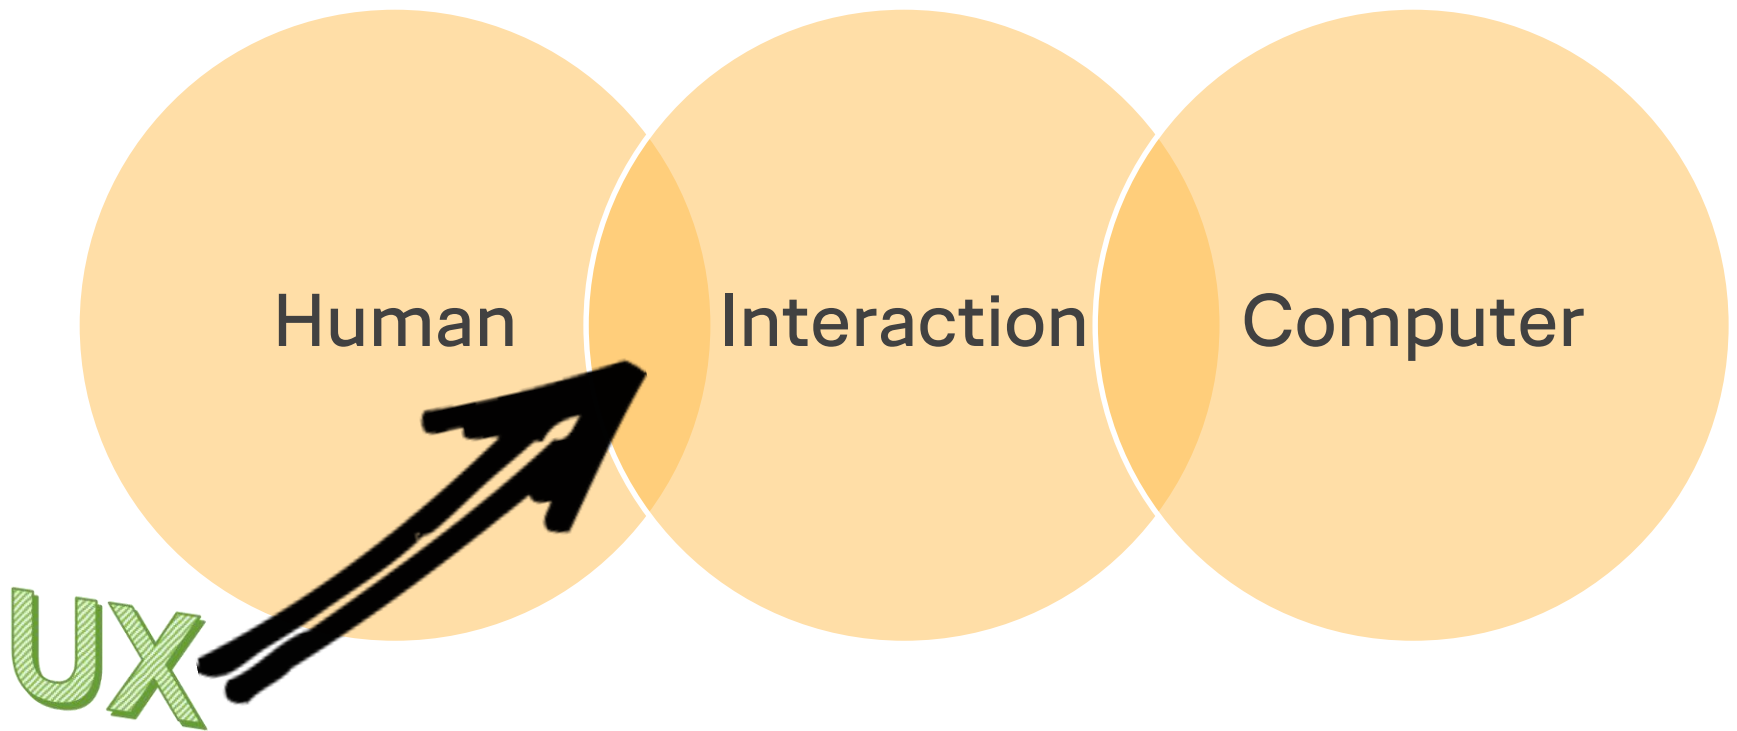

User eXperience Design

ex·pe·ri·ence  (ĩk-spîr'ē-əns)

n.

1. The apprehension of an object, thought, or emotion through the senses or mind: *a child's first experience of snow.*

Prototyping

Usability

– testing

Exercise

- A small group of students is visiting Legoland and want a system that helps them find each other again, when they got parted.
- Design something.....

Exercise

- A small kayak club wants a simple distance tracking app.
- Design something.....
